

RUMPUSROOM PHOTOGRAPHY

Ina Weyers

BIO

Ina's love for photography started as a kid spending many Sundays assisting her parents in their home-based dark room. She got her first camera at the age of 12 and started experimenting with film, polaroid, collages. After studying Art History at the University and eager to get a deeper knowledge of photography she started her training as a photographer, followed by many workshops and lectures. Ina always enjoyed playing with light, color, form, space, reflection. Her pictures mirror nostalgia, beauty in the simple things, poetry in the unexpected, reflections on time, nature versus society. Currently working on new projects in here Antwerp-based studio called RumpusRoom.
